

# MAKE AN IMPACT!

Forge the Future Camps expose students to the world of forging through hands-on learning experiences.

Students will get the opportunity to participate in STEAM team building activities, go on a plant or facility tour, and forge their own item to take home!

# WHY SUPPORT?

**Expose** students to manufacturing and the forging industry at a young age.

**Engage** kids in hands on activities related to STEM, and more specifically - the forging industry.

**Create** memorable experiences for children in your community.

**Educate** both kids and their families about manufacturing careers.

**Build** the future of forging and keep the industry strong for the next generation!

## THANK YOU SPONSORS:

Finkl Steel
